[redacted] 25X

2. Security

Copies of form 1841 (Request for Contract Security Authorization) were given to Mr. [redacted] X1 for the Key employees.

[redacted] X1 is the only member of the firm that holds Agency clearance.

3. 13 X Tube Magnifier.

The 13 X tube magnifier that [redacted] 25X developed for the [redacted] 25X was discussed in considerable length.

[redacted] X1 stated that this magnifier could be produced for us with the modification we desire. It was requested that a stainless ring be produced for the base of the magnifier and a reticle be developed.

[redacted] X1 is to send us a quote on 400 to 500 units with and without

Declass Review by NGA.

4. 7X Tube Magnifier

The presently used [redacted] 7X 25X
tube magnifiers were shown to [redacted] 25X
[redacted] 25X
asked if the effective field of view 25X
could be improved upon. The [redacted]
representatives felt that it could probably
be increased almost 50% using a field flattener
[redacted] suggested that this could be
probably best be handled in two phases.

X1

Phase 1 - Design Study, Approaches to
the Problem and costs for improving
various features.

Phase 2 - Production of magnifiers.

X1

[redacted] agreed to submit an estimate
for a Design Study for a 7 X Tube Magnifier
